INTRO: C Am F G

VERSE:

```
        C              Am
Looking back over the years
   F                    G                  C
Of all the things I've always meant to say
        Am                  F
But the words didn't come easily
G       C                    Am
So many times through empty fears
   F                 G                      C
Of all the nights I tried to pick up the phone
   Am                     F
So scared of who might be answering
F   G                G/B                  C
You try to live your life from day to day
    F      G     F                  Am                      G
But seeing you across the room tonight just gives me away

           C     Am    F
'Cause the heart won't lie
         Dm                  G
Sometimes life gets in the way
           C                      Am
But there's one thing that won't change
        F             G
I know, I've tried
    C     Am    F
The heart won't lie
        Dm         G
You can live your alibi
        C                Am             F                Am F G
Who can see you're lost inside a foolish disguise
                 C     Am F G
The heart won't lie
```

VERSE:

```
C          Am
Long after tonight
     F                  G
Will you still hear my voice?
           C          Am                    F
Through the radio old desires make us act carelessly
G          C
 Long after tonight
         Am              F                 G/B
After the fire after the scattered ashes fly
                      C          Am
Through the four winds blown and gone
               F             G
Will you come back to me?
F   G                G/B                C
You try to live your life from day to day
```

```
    F      G     F                  Am                    G
But seeing you across the room tonight just gives me away

CHORUS:

           C     Am    F
'Cause the heart won't lie
         Dm                 G
Sometimes life gets in the way
           C                      Am
But there's one thing that won't change
        F            G
I know, I've tried
    C     Am    F
The heart won't lie
        Dm        G
You can live your alibi
        C               Am             F               Am F G
Who can see you're lost inside a foolish disguise
                C     Am  F G
The heart won't lie

C  Am  F G

                C
The heart won't lie
