VERSE:
```
N/C          G                      C
It's four a.m. in New York City three a.m. in Dallas
    G               Em             Am      D
The night is still early here in Frisco
Em                   G          C
Market Street still going the same old shows are showing
    G          Em    Am  D         G
And I'm still all alone here in Frisco

They say it's raining in Chicago but it's cold and clear in Denver
Been windy all night long here in Frisco
Trolly cars are clinging the big bay town is swinging
And I'm still all alone here in Frisco
```

CHORUS:
```
G   C             Cm                 G
The way I feel tonight I won't be staying long
            Em                     A                 D
But when I leave I'll leave my heart just like in the famous song
Em               G              C
Trolly cars are clinging the big bay town is swinging
    G          Em    Am  D         G
And I'm still all alone here in Frisco
```

TAG:
```
    G/         Em/  Am/ D/        G
And I'm still all alone here in Frisco
