**One More Time - Chante Moore - lyrics**
**One More time - Chante Moore**

**I lie half awake, late at night**
**I reach out to touch you**
**feel you by my side**
**and I reach, and I reach,**
**but I never get to feel you**
**Will I ever get to feel you again, again**

**Just one more time**
**One more moment**
**To take you in my arms**
**One more chance**
**One more kiss**
**Before I wake to find you gone**
**One more time**
**Before I have to face another day,**
**and my heart breaks again**

**It's only a dream**
**but it's all so real**
**Don't want it to end**
**but I know it will**
**So I pray, and I pray**
**Every night I'm on my kness**
**Begging for the chance to see you**
**again, again**

**Just one more time**
**One more moment**
**To take you in my arms**
**One more chance**
**One more kiss**
**Before I wake to find you gone**
**One more time**
**Before I have to face another day,**
**and my heart breaks again**

**Oh one more time**
**Before I have to face another day,**
**and my heart breaks again**
**again...**
