Grown Up Tears
by Marty Robbins

G
Oh I thought that I'd been in love before
    C                   G
But that was in younger years
C                          G
Now I know that you've never been in love until
       C                       G
You've cried   those big old grown up tears
               D7              G
You've cried   those grown up tears

And I thought that I knew what love could do
  C                     G
But now the whole truth appears
  C                      G
I never really knew what love could do
       C                      G
Till I cried   those big old grown up tears
          D7                G
I cried   those grown up tears

C                 G
Gave you all the love I had
        C               G
'Til my very soul was bare
      C           G
What a fool I was because I knew
    A7                  D7
You didn't even really care

G
I guess I always felt that our love would die
    C               G
And now my gravest fears ...
     C                     G
Have been realized take a look at my eyes
     C                      G
From cryin'  those big old grown up tears
     C        D7                  G
From cryin'   those big grown up tears
```
