Love Needs
Live Classics from the Grand Ole Opry

We both act like strangers
And I can sense the danger
That the love we shared
Is commin' to an end
And it causes me to wonder
Just what makes it happen
When two people let a love so strong
Slip right through their hands

Love needs walkin', talkin', touchin' feelin'
Needin' wantin' and just bein' close to share the
Happiness or let downs that life brings
Yes, but one by one the treasures of our
Love was stole away, now love is gone through
Cold indifference disregarding all love needs

With pride justifyin' ourselves into believin'
We could hurt each other and have no regrets
So we took our love for granted
And love dies if you don't feed it
When we let too many things like,
Dear I love you, go unsaid

Love needs walkin', talkin', touchin' feelin'
Needin' wantin' and just bein' close to share the
Happiness or let downs that life brings
Yes, but one by one the treasures of our
Love was stole away, now love is gone through
Cold indifference disregarding all love needs
