When I'm Gone
by Marty Robbins

```
 C          F              C
When I'm gone will you forget me
G7                         C
Will you find somebody new
          F              C
When I'm gone will you forget me
G7                       C
Darling as you often do
           F              C
When I'm gone will you forget me
G7
C
Will you look for someone new
           F            C
Will some other arms enfold you
G7                           C  C7
Just the way mine used to do
 F                           C
Will there be no memory of me
D7                           G7
Or the first day when we met
C          F                 C
When I'm gone will you remember
  G7                         C
Or when I'm gone will you forget
```
