

Night

You get up every morning at the sound of the bell
You get to work late and the boss mans giving you hell
Till youre out on a midnight run
Losing your heart to a beautiful one
And it feels right as you lock up the house
Turn out the lights and step out into the night

And the world is busting at its seams
And youre just a prisoner of your dreams
Holding on for your life `cause you work all day
To blow `em away in the night

The rat traps filled with soul crusaders [1]
The circuits lined and jammed with chromed invaders
And shes so pretty that youre lost in the stars
As you jockey your way through the cars
And sit at the light, as it changes to green
With your faith in your machine off you scream into the night

And youre in love with all the wonder it brings
And every muscle in your body sings as the highway ignites
You work nine to five and somehow you survive till the night
Hell all day theyre busting you up on the outside
But tonight youre gonna break on through to the inside
And itll be right, itll be right, and itll be tonight

And you know she will be waiting there
And youll find her somehow you swear
Somewhere tonight you run sad and free
Until all you can see is the night
