```
Roll of the Dice-crd
 (Bruce Springsteen/Roy Bittan)

| C | C | C | C | F | F | A | A | G | F | C | C

Well I've been a losin' gambler

Just throwin' snake eyes
           F
Love ain't got me downhearted
                    A
I know up around the corner lies
           G
My fool's paradise
   F                      C
In just another roll of the dice

All my elevens and sevens been comin' up

Sixes and nines
           F
But since I fell for you baby
                    A
Been comin' on changin' times
                      G
They're waitin' over the rise
F                     C   | C | D
Just another roll of the dice

                  C                  F       G
I've stumbled and I know I made my mistakes
    D                C                    F                 G
Oh, but tonight I'm gonna be playin' for all of the stakes

          C
Well it's never too late so come on girl

The tables are waiting
          F
You and me and lady luck well tonight
           A
We'll be celebrating
                     G
Drinkin' champagne on ice
   F                      C
In just another roll of the dice

| C | C | C | C | C | F | F | A | A | G | F | C | C | Bb

                  D                          C
High-rollers lay down your bets and I'll raise 'em
   Bb                  D                    G   F
And well, I know the odds ain't in my favor

                  C
Maybe I'm just a clown throwin' down

Lookin' to come up busted
           F
I'm a thief in the house of love
                  A
And I can't be trusted
                     G
Well I'll be makin' my heist
```

```
    F                          C
In just another roll of the dice
F                         C
Just another roll of the dice
                        F
Move on up, move on up
A                                  G
Roll me baby in this fool's heaven
                 F                          C
Oh yeah, just another roll of the dice

(fade out)
```
