Across The Great Divide

```
A                 D     A
I've been walking in my sleep
         F#m                        D
Counting troubles 'stead of counting sheep
          A                    F#m
Where the years went I can't say
       D              E                 A
I just turned around and they've gone away
A                 D            A
I've been sifting through the layers
         F#m              D
Of dusty books and faded papers
            A                F#m
They tell a story I used to know
                    D        E       A
And it was one that happened so long ago

***Chorus:
A                 D     A
It's gone away in yesterday
                        F#m                              D
Now I find myself on the mountainside
                           A      E         F#m   A
Where the rivers change direction
                  D          E       A
Across the Great Divide
A                 D     A
Now, I heard the owl a-callin'
       F#m               D
Softly as the night was fallin'
       A                 F#m
With a question and I replied
         D     E               A
But he's gone across the borderline
Chorus
 A                   D      A
The finest hour that I have seen
       F#m                D
Is the one that comes between
            A                          F#m
The edge of night and the break of day
                D        E       A
It's when the darkness rolls away
***Chorus Twice
```
