Ain T It Enough
Capo II

D A G D Bm E A 2x

```
D          A
Show me a river,
     G           D
I'll show you an ocean,
           Bm
Show you a castle,
E           A
Turned into sand
D                   A
For we rise and we fall,
       G            D
And we crash on the coastline,
             Bm        A              G
But only our love will last till the end

D          A
Fortune is fleeting
G          D
Time is deceiving
           Bm            E          A
Bodies are weak and they turn into dust
D            A
All following blindly,
    G            D
But love is like lightning,
                Bm
It strikes only one time
    D          G
And ain't it enough?

G          D
Ain't it enough,
   A            G            D
To live by the ways of the world
      G           D
To be part of the picture
    G          A
Whatever it's worth?
        D                 A
Throw your arms around each other
    G          D
And love one another
          Bm       G                A
For it's only one life that we've got
    G          D
And ain't it enough?

D A G D Bm E A

D           A           G               D
Surely all people were made for each other
              Bm               E             A
To join in together when the days turn to dusk
       D                     A
So the let the prison walls crumble,
         G           D
And the borders all tumble
                      Bm
There's a place for us all here
    D          G
And ain't it enough?

G          D
Ain't it enough,
   A            G            D
To live by the ways of the world
      G           D

Lying beside you,
