I Know You're Married
written by Don Reno and Mack Magaha

```
C
You know I love you and I always will
                              G7       C
I know you're married but I love you still

The day I met you my heart spoke to me
                     D7           G7
It said to love you through eternity
C
Not knowing that you were another's bride
                               G7      C
I vowed I'll always be close by your side

C
You know I love you and I always will
                              G7       C
I know you're married but I love you still

You broke a heart dear that would die for you
                              D7        G7
I'd give this world dear to belong to you
C
The game is over now and we've both lost
                              G7      C
A broken heart will have to pay the cost

C
You know I love you and I always will
                              G7       C
I know you're married but I love you still
```
