I'm Going Back To Old Kentucky
Written and recorded by Bill Monroe

```
C
Now when I left old Kentucky
                          G7
Linda kissed me and she cried
           C
I told her that I would not linger
                 G7     C
That I'd be back by and by

I'm going back to old Kentucky
                        G7
There to see my Linda Lou
          C
I'm going back to old Kentucky
                G7          C
Where the skies are always blue

Linda Lou she is a beauty
                                      G7
Those pretty brown eyes I loved so well
          C
I'm going back to old Kentucky
            G7          C
Never more to say farewell
```

Repeat #2

```
Linda Lou you know I love you
                                   G7
I long for you both night and day
                C
When the roses bloom in old Kentucky
                G7      C
I'll be coming back to stay
```

Repeat #2
