Ring The Bell
Recorded by The Gibson Brothers
Written by Chester Pickering O'Keefe

```
C                                          C7
In the road was a bell in the bell was a sound
   F                        C
Of days that have come and gone

And the road ran to a little town on the hillside
                       G7          C
Where the word of the Lord lives on

Ring the bell (ring the bell) ring the bell
                F                              C
(Ring the bell) ring the bell both far and wide

You can hear it on the mountain

And down across the valley
                     G7         C
Ring the bell and go to His side

                                                    C7
Well I followed it down from the forest to the town
       F                     C
In the darkness in dead of night

There were children dancing there with flowers in their hair
                          G7           C
And the streets were lit with candle light

Repeat #2

                                                          C7
Now the farmer and the teacher and the barber and the preacher
    F                          C
All held hands and moved as one

The holy words of some not spoken of a circle unbroken
                       G7       C
And the spirit moved in everyone

Repeat #2

                                                      C7
In the middle of the street I fell down hard on my knees
       F                           C
To the payment that shown like gold

With a shiver in the stars He reached into my heart
                       G7           C
And with the kindest words I was told

Repeat #2  x2
```
