```
G                          D7         G            C
This old towns filled with sin it'll swallow you in
   G                          D7
If you've got some money to burn
        G           D7                G               C
Take it home right away you've got three years to pay
    G        D7          G
But Satan is waiting his turn

          C                   D7                G
This old earthquake's gonna leave me in the poorhouse
   C                 G             D7
It seems like this whole town's insane
       C    D7      G            C
On the 31st floor a gold plated door
      G            D7              G
Won't keep out the Lord's burnin' rain

               D7               G              C
A friend came around tried to clean up this town
    G                        D7
His ideas made some people mad
   G           D7          G                C
He trusted his crowd so he spoke right out loud
    G              D7                 G
And they lost the best friend they had

Repeat #2

       C    D7      G            C
On the 31st floor a gold plated door
      G            D7              C  G
Won't keep out the Lord's burnin' rain
