Sorrow On The Rocks
Sorrow On The Rocks
Porter Wagoner

Chorus

```
              A
Just pour me sorrow on the rocks, bartender
  D
Sorrow on the rocks will do
     A
I'm tryin' to drown my troubles
                      G       D
So make it a double mhm mhm mhm
```

```
D
The seat of my pants is slick from my barstool
and my hand's in the shape of a glass
My eyes look like a roadmap of Georgia and it's a shame I've lost my class
 G                                                  D
One broken heart can do strange things to a fellow who can't take pain
But in this hundred proof condition I'm in no position to take her back again
```

Repeat Chorus

```
D
Looks like the hair on my head ain't never met a comb
and my face is a bearded mess
My hand shakes slightly and I have to walk lightly
or I'll weave from right to left
      G                                                          D
The music on the jukebox don't mean a thing cause I'm too far gone for a song
I sure feel bad cause my baby ain't here and I'm sorry that I done her wrong
```

Repeat Chorus

Repeat Chorus (Fade Out)
