The Grass Is Blue

```
C
I've had to think up a way to survive
F
Since you said it's over
             C
Told me good-bye
C
I just can't make it one day without you
F                          G          C
Unless I pretend that the opposite's true
Am          C
Rivers flow backwards
F           C
Valleys are high
C             F
Mountains are level
           C
Truth is a lie
Am           C
I'm perfectly fine
    F            C
And I don't miss you
    F
The sky is green
        G        C
And the grass is blue

    C
How much can a heart and a troubled mind take
F                                        C
Where is that fine line before it all breaks

Can one end their sorrow

Just cross over it
F                       G          C
And into that realm of insanitive bliss
Am                   C
There's snow in the tropics
F                   C
There's ice on the sun
     C          F
It's hot in the Arctic
               C
And crying is fun
Am             C
And I'm happy now
    F               C
And I'm glad we're through
        F
And the sky is green
        G        C
And the grass is blue

        Am          C
And the rivers flow backwards
    F            C
And my tears are dry

Swans hate the water
    F            C
And eagles can't fly
Am              C
But I'm alright now
         F         C
Now that I'm over you
        F
And the sky is green
        G        Am
And the grass is blue
    F
```

```
And I don't love you
          G          Am
And the grass is blue
```
