Think of Me
INTRO: C G C G

CHORUS:

```
C                        F        G                        C
Think of me when you're lonely   Think of me when you're blue

C                        Dm   F        G                    C
Think of me when you're far away  And I'll be thinking of you
```

VERSE 1

```
C                    F               G                 C
Remember all of the good times   We had in days gone by

C                    Dm F        G                 C
Remember all of the sadness The day you said goodbye

    C                    F                G                      C
You told me you would be leavin'  But you wouldn't be gone too long

      C                    Dm       F        G                          C
Now I hope and pray with each new day That you'll come a-travelin' home
```

REPEAT CHORUS

INST: G D G D

```
  C                  F        G               C
I watch the mailman comin' I wait by the telephone

  C                           Dm  F          G                C
I meet the trains down at the sta-tion And I spend my nights alone

    C                    F          G                 C
But now the waitin' is over   And Time has set the scene

     C                  Dm   F       G                 C
'Cos God meant me for only you And he meant you for me
```

REPEAT CHORUS:
