Tumbling Tumbleweeds
by Bob Nolan

Prelude:

```
C                      F               C
I'm a roaming cowboy, riding all day long
G7                     C
Tumbleweeds around me sing their lonely song.
F                            C Cm6 A7
Nights underneath a prairie moon,
D7                      G
I ride alone and sing a tune.
```

Chorus:

```
F                       F7
See them tumbling down,
E                                E7
Pledging their love to the ground,
F                        C       C#dim
Lonely but free I'll be found
G7                                C         C+
Drifting along with the tumbling tumbleweeds.

F                              F7
Cares of the past are behind,
E                              E7
Nowhere to go but I'll find
F                           C      C#dim
Just where the trail will wind,
G7                                C         C+
Drifting along with the tumbling tumbleweeds.

  Fm6  G7              C            Am6# B7              Em  B7  G7
I know when night has gone that a new world's born at dawn,

F                         F7
I'll keep rolling along,
E                              E7
Deep in my heart is a song,
F                        C      C#dim
Here on the range I belong,
G7                                C     C7  C+
Drifting along with the tumbling tumbleweeds.
```

Repeat from Chorus to end

Last time add:

```
G7                                C
Drifting along with the tumbling tumbleweeds.
```

Some Chords:
