Merry Texas Christmas You all

Recorded by Gene Autry
Written by Leon Harris and Bob Miller

```
C                  G7
We have no jingle bells or sleigh
                C
To display on Christmas Day
                              F
Theres not much snow down Texas way
G7
But we sure mean it when we say

      C                    G7
Merry Texas Christmas you all
                           C
Merry Texas Christmas you all
                            F
May your days be sunny and bright
                              D7
May your hearts be happy and light
      G7                   C
Merry Texas Christmas you all
```

Repeat #2

```
                G7
If wishes only could come true
                   C
Wed wish that we could send to you
                        F
A gushing oil well or two
    G7
And say hi there and wishing you
```

Repeat #2 x2

```
                            F
May your days be sunny and bright
                              D7
May your hearts be happy and light
      G7                   C
Merry Texas Christmas you all
      G7                   C
Merry Texas Christmas you all
      G7                   C
Merry Texas Christmas you all
```
