Gathering In The Sky-Porter Wagoner
Auth Wayne Raney and R.E. Winsett

```
G
There'll be a great gathering in the sky
                              C
When all of God's children get home
                             G
We'll join the happy millions as they sing
      A7                     D7
There around the great white throne

G
I'm speaking of a big camp meeting
                         C
Where we never shall say goodbye
                              G
I'm longing for the day when I hear my Savior say
          D7                G
There's a gathering in the sky

One by one we pass through the valley
                              C
Then our load seems hard to bear
                         G
But I'm going to a great reunion
      A7                     D7
Where people's not afraid of prayer

G
There'll be a lot of old time singing
                        C
Somewhere up there on high
                             G
It seems that I can hear them saying
          D7                G
There's a gathering in the sky

Repeat verse 1 & 2
```
