

GOING BACK **The Freemans**

Whatever happened to death do us part - does it all reflect the heart
Parents faces tell of worried minds while children search but cant seem to find
Its time we took a closer look got back to living by the Holy Book
No compromise without getting slack you see well go forward, if well just go back

We'll know the trees by the fruit we see serving God has no in between
Were either cold or were hot He said lukewarm will have no part
Its coming down to in or out theres no time for playing around
Were going back to lost or found were going back to stand our ground

(Chorus)

Weve got to go back to living true - were going back to the absolute
Back to where the church stands strong - back to where theres a right there is a wrong
Back to where its black or white - you see the difference seems like day and night
Were going back to things above - were going back to our first love

Modulate

Then well rise like a sleeping giant standing tall in Gods strength and might
The power we claimed for so long, you see its returning - oh, were being made strong
Were not looking to the right or the left our eyes are spirit-led
Were going back to true or false - Church, weve got to go back to Calvarys cross

(Repeat Chorus)

Tag: Were going back to where the church stands strong

Were going back - were going back
