It Was Jesus-Johnny Cash

```
C
Well a man walked down by Galilee
                      G7
So the Holy Book does say
      C                F
And a great multitude was gathered there
         G7              C
Without a thing to eat for days

Up stepped a little boy with a basket
                       G7
Please take this Lord he said
         C                     F
And with just a five loaves and two little fishes
     G7                    C
Five thousand had fish and bread

               F
Who was it everybody (it was Jesus)
               C
Who was it everybody (it was Jesus)
               F
Who was it everybody (it was Jesus)
       G7              C
It was Jesus Christ our Lord

Now pay close attention little children
                        G7
It's somebody you oughta know
             C                    F
You know it's all about a man that walked on earth
       G7                  C
Nearly two thousand years ago

Well He healed the sick and afflicted it
                       G7
And He raised 'em from the dead
         C                F
Then they nailed Him on an old rugged cross
        G7             C
And put thorns on His head

Repeat verse 3

Well they took Him down and they buried Him
                    G7
And after the third day
         C                          F
When they came to His tomb well they knew He was gone
         G7                C
Cause the stone was rolled away

He's not here for He is risen
                        G7
The angel of the Lord then said
    C                              F
And when they saw Him walking with His nail-scared hands
            G7                  C
They knew He came back from the dead

Repeat verse 3
```
