When God Calls His Children Home-Hank Thompson

```
G                  D7       G
When God calls His children home
  C          D7           G
I want to be there by the throne
      C
Well be by His side
    G           E7
And in His love abide
     C             D7       G
When God calls His children home

                      D7         G
In heaven there will be no more pain
      C           D7          G
Well be with our loved ones again
C
Well hear Gods voice
    G           E7
And in His love rejoice
     C             D7       G
When God calls His children home

                    D7            G
Well all reap the harvest weve sown
    C        D7            G
And all evil deeds will be gone
    C
The glory of our King
     G         E7
Will eternally ring
     C             D7       G
When God calls His children home

              D7            G
Think of the past that has flown
    C            D7                  G
And think of the heartaches youve known
    C
Our Father up above
     G                  E7
Will bless you with his love
     C             D7       G
When God calls His children home
```
